Notes to the Condensed Interim Consolidated Financial Statements

Three and Nine Month Periods Ended July 31, 2018

(Stated in Canadian Dollars)

(UNAUDITED)

1. Nature of Operations and Going Concern

Heritage Cannabis Holdings Corp. (formerly Umbral Energy Corp.) (the "Company") is a development stage public company whose common shares trade on the Canadian Securities Exchange under the symbol "CANN". The Company was incorporated on October 25, 2007 in British Columbia, Canada, under the Business Corporations Act and commenced operations on November 1, 2007. On January 9, 2018, the Company changed its name to Heritage Cannabis Holdings Corp. The head office and principal address of the Company is 929 Mainland Street, Vancouver, British Columbia, Canada V6C 2B3 and the registered and records office of the Company is located at Suite 1500-1055 West Georgia St., Vancouver, B.C., V6E 4N7.

The Company is principally engaged in the acquisition of a Health Canada license under the Access to Cannabis for Medical Purposes Regulations ("ACMPR") for the purpose of entering the medical marijuana industry through its investment in PhyeinMed Inc., a 75% owned subsidiary of the Company.

During the period ended July 31, 2018, the Company was awarded a license to grow medical marijuana. As the Company does not yet have cash flow from operations, it must rely on equity financing to fund operations. To date the Company's main source of funding has been the issuance of equity securities for cash, through private placements to sophisticated investors and through public offering to institutional investors. The Company has historically raised operating capital from the sale of equity, and will continue to do so.

The condensed interim consolidated financial statements have been prepared on the basis of accounting principles applicable to a going concern. This assumes the Company will operate for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of operations. The Company has incurred operating losses since inception, does not have positive operating cash flow, and there can be no assurances that sufficient funding, including adequate financing, will be available to develop its ACMPR business plans and to cover general and administrative expenses necessary for the maintenance of a public company. The ability of the Company to arrange additional financing in the future depends in part, on the prevailing capital market conditions and its success on generating positive cash flows as a result of receiving an ACMPR license. These factors may cast significant doubt on the Company's ability to continue as a going concern. Accordingly, the condensed interim consolidated financial statements do not give effect to adjustments that would be necessary should the Company be unable to continue as a going concern and therefore be required to realize its assets and liquidate its liabilities, contingent obligations and commitments other than in the normal course of business and at amounts different from those in these condensed interim consolidated financial statements.

2. Basis of Presentation

These condensed interim consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") applicable to the preparation of condensed interim consolidated financial statements, including International Accounting Standard ("IAS") 34 - Interim Financial Reporting. The accounting policies followed in these condensed interim consolidated financial statements are the same as those applied in the Company's audited annual financial statements for the year ended October 31, 2017.

These condensed interim consolidated financial statements were approved and authorized for issue by the board of directors on December 7, 2018

2. Basis of Presentation (Continued)

These condensed interim consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries, 1005477 B.C. Ltd. and Umbral Energy LLC (Washington State) and a 75% interest in PhyeinMed Inc. The condensed interim financial statements of the subsidiaries are prepared using consistent accounting policies and reporting dates of the Company. All inter-company transactions and accounts have been eliminated upon consolidation.

The policies applied in these condensed interim consolidated financial statements are based on IFRS issued and outstanding as of August 31, 2018, the date the Audit Committee approved the statements. Any subsequent changes to IFRS after this date could result in changes to the condensed interim consolidated financial statements for the period ended July 31, 2018. The condensed interim consolidated financial statements do not contain all disclosures required under IFRS and should be read in conjunction with Company's annual financial statements and the notes thereto for the year ended October 31, 2017.

The preparation of condensed interim consolidated financial statements in conformity with IFRS requires management to make judgments and estimates that affect the reported amounts of assets and liabilities and disclosures of contingent assets and contingent liabilities at the date of the condensed interim consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. The condensed interim consolidated financial statements include estimates which, by their nature, are uncertain. The impacts of such estimates are pervasive throughout the condensed interim consolidated financial statements, and may require accounting adjustments based on future occurrences. Revisions to accounting estimates are recognized in the period in which the estimate is revised and may affect both the period of revision and future periods. Actual results could differ from those estimates. Significant accounts that require estimates as the basis for determining the stated amounts include but are not limited to share-based payments, allocation of financing proceeds and income taxes. Differences may be material.

e) Restricted Share Units

The Company has adopted a restricted share unit plan, which provides that the Board of Directors of the Company may from time to time, in its discretion, and in accordance with the Canadian Stock Exchange requirements, grant to directors, officers, employees and technical consultants to the Company, restricted share units ("RSU's"), provided that the number of common shares reserved will not exceed 10% of the issued and outstanding common shares of the Company.
